

## 1. Automatic Edge Bander

**Model:** SCM STEFANI KD T-ERS

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM STEFANI KD T-ERS
- Country of Origin: Italy
- Application: Automatic Edge Bander

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 2. Automatic Throughfeed Moulder Machine

**Model:** SCM SUPERSET NT

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM SUPERSET NT
- Country of Origin: Italy
- Application: Automatic Throughfeed Moulder Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 3. Automatic Wide Belt Sander

**Model:** SCM DMC SD 60

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM DMC SD 60
- Country of Origin: Italy
- Application: Automatic Wide Belt Sander

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 4. Automatic Single-Blade Beam Saw Machine

**Model:** SCM GABBIANI S 95

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM GABBIANI S 95
- Country of Origin: Italy
- Application: Automatic Single-Blade Beam Saw Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 5. Sliding Table Saw Cutting Machine

**Model:** SCM MINIMAX SI 400ES

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM MINIMAX SI 400ES
- Country of Origin: Italy
- Application: Sliding Table Saw Cutting Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 6. Sliding Panel Saw Cutting Machine

**Model:** SCM SI 40 Nova

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM SI 40 Nova
- Country of Origin: Italy
- Application: Sliding Panel Saw Cutting Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 7. Thickness Planer Machine

**Model:** SCM S 63

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM S 63
- Country of Origin: Italy
- Application: Thickness Planer Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 8. Semi Automatic Boring Machine

**Model:** SCM STARTECH 27

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM STARTECH 27
- Country of Origin: Italy
- Application: Semi Automatic Boring Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 9. Spindle Moulding Machine

**Model:** SCM T 130

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: SCM T 130
- Country of Origin: Italy
- Application: Spindle Moulding Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 10. Band Sawing Machine

**Model:** Centauro CO-SC 800

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: Centauro CO-SC 800

- Country of Origin: Italy
- Application: Band Sawing Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **11. Surface Planer Machine**

**Model:** CASADEI PF 52

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: CASADEI PF 52
- Country of Origin: Italy
- Application: Surface Planer Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **12. Hot Hydraulic Press Machine (2017)**

**Model:** ORMA NPC 6/95

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: ORMA NPC 6/95
- Country of Origin: Italy
- Application: Hot Hydraulic Press Machine (2017)

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **13. Hot Hydraulic Press Machine (2023)**

**Model:** ORMA NPC 6/95

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: ORMA NPC 6/95
- Country of Origin: Italy
- Application: Hot Hydraulic Press Machine (2023)

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 14. Horizontal Single Spindle Mortising Machine

**Model:** MS 302

**Origin:** China

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: MS 302
- Country of Origin: China
- Application: Horizontal Single Spindle Mortising Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 15. Drill Press Machine

**Model:** BACO ZJQ5125

**Origin:** China

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: BACO ZJQ5125
- Country of Origin: China
- Application: Drill Press Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 16. Chain Mortisers Machine

**Model:** Centauro CVS 60

**Origin:** China

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: Centauro CVS 60
- Country of Origin: China
- Application: Chain Mortisers Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality

- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **17. Curve Round Rod Stick Milling Machine**

**Model:** ZD16-60

**Origin:** China

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: ZD16-60
- Country of Origin: China
- Application: Curve Round Rod Stick Milling Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **18. Router Cutting Machine**

**Model:** Simlex CLASSIC 13 25 HGR

**Origin:** Egypt

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: Simlex CLASSIC 13 25 HGR
- Country of Origin: Egypt
- Application: Router Cutting Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## **19. Veneer Pack Guillotine Shears**

**Model:** CASATI CIM31

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: CASATI CIM31
- Country of Origin: Italy
- Application: Veneer Pack Guillotine Shears

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 20. Glue Thread Splicing Machine

**Model:** CASATI Z1000

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: CASATI Z1000
- Country of Origin: Italy
- Application: Glue Thread Splicing Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 21. Blades Sharpening Machine

**Model:** CMA AF/65

**Origin:** Italy

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: CMA AF/65
- Country of Origin: Italy
- Application: Blades Sharpening Machine

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations

## 22. Forklift

**Model:** CDD-B25

**Origin:** China

**Specifications:**

- Machine Type: Industrial Woodworking Equipment
- Model Reference: CDD-B25
- Country of Origin: China
- Application: Forklift

**Advantages:**

- High productivity and consistent performance
- Improves manufacturing accuracy and quality
- Reduces manual labor and production time
- Suitable for industrial woodworking operations
